maze
of
networks
- experiencing
the system

transparency

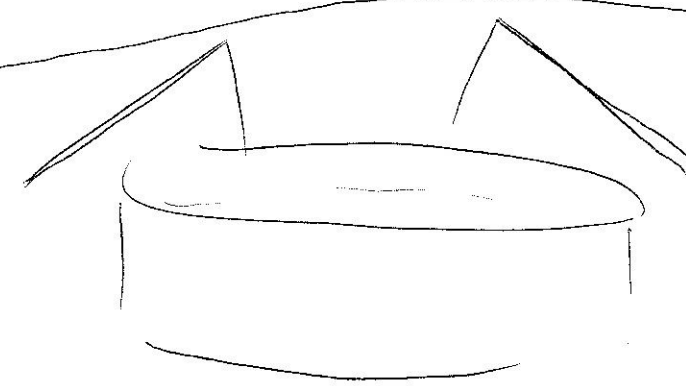

about the systems of fish
from the fish ecosystem in water
fishing - livelihood of fishermen
distribution of this fishing
consumers / retailers / market

governance
/ management
?

4) where is
the fish?
presented
as
negative
/ not
present
element

6) PETA
clothing
with
fish scales

5) Skype
with
fishermen
real
time
at
class
time

game context

"fish your own"

dependency

↳ ever-growing
network &
responsibility levels

- shifting the responsibility
